New Business:**Steve Bremer:****Flow Meter:**

Steve told the council that the flow meter has been installed and readings are down 28 gallons per minute from the old system. By yearend it should be down 2,000,000 gallons which will decrease the cost of acreage needed for land application.

Baffles:

Steve told the council that the baffles have been placed and that the VFD's will be getting installed soon. The Sim Card also has to be changed to Verizon.

Department of Health Checklist:

Mayor Weber reviewed the list of issues from the DOH inspection. The only deficiency was that the bolt head was not covering the hole entirely. Steve immediately sealed the sanitary cover for the wellhead water tight.

Inland Internet:

Inland Internet has begun to put in the fiber to Colton resident's homes. All reports have been positive on the internet speed.

Old Business:**Backhoe:**

There is nothing new on the back hoe purchase.

Flashing Lights:

Jenni told the council that she spoke with DOT about the flashing lights getting approved by them. They told her that they would not approve those type of flashing lights on their signs. They said that they would probably approve that the town could put new signs with flashing lights, that will be maintained by the town. They recommended the black-out

signs that are black and only light up if a person was speeding. They did offer to put two more speed signs up at their cost. Steve will look into pricing for the black-out signs.

A motion to close the meeting was made by Dot Sharp and seconded by Scott Miller. The motion was carried by voice and passed by all. The meeting closed at 7:58 p.m.
