

ATTENTION!!

Please Curb Your Water Use As Much As Possible Starting June 10th

The Town's water tank will be shut down for cleaning and painting starting June 10th. We are unsure how long this project will take, so please water your lawns very minimally until further notice. The Town will not have any water storage and will be running directly off of the town's wells. We are very sorry for the inconvenience and will send out another letter as soon as this project is completed.

Thank you for your patience.
